

## Advocacy letter for school file

Hello everyone,

My name is \_\_\_\_\_ and I am a parent of \_\_\_\_\_ who is now \_\_\_\_ years old .

As you can see in your documents, \_\_\_\_ is diagnosed with \_\_\_\_\_.

Before I start explaining \_\_\_\_ challenges and needs caused by \_\_\_\_ diagnosis, let me tell you first how wonderful \_\_\_\_ is using my documents! These documents are attached. Let me tell you about \_\_\_\_\_ abilities.

At this time I will use a strengths-based approach, applying the 'F-Words' for Child Development. These are grounded in the World Health Organization's International Classification of Functioning, Disability and Health (the ICF). F-Words for Child Development are described in a published paper written by *CanChild's* Drs. Rosenbaum and Gorter, titled: "The 'F-words' in Childhood Disability: I swear this is how we should think!" These six F-words, that the authors state should be the focus in all discussions about childhood disability, are: *Function, Family, Fitness, Fun, Friends, and Future.*

Here are some documents that will help me highlight \_\_\_\_\_ abilities :

- **The F-Words Agreement** – This is a document that represents an informal but serious pact between \_\_\_\_\_ and whoever \_\_\_\_ relies on for support.
- **The F-Words Collage** – This is a collage that provides a snap shot of my child. I would love to tell you why these pictures are meaningful. Please ask me.
- **The F-Words Profile** – This document can tell you a lot about \_\_\_\_\_ and \_\_\_\_ favorite things.
- **The F-Words Goal sheet** – These are our goals for school. Please help us try to organize \_\_\_\_\_ day so we can achieve them.

Thank you for taking the time to learn about \_\_\_\_\_ and what is important to \_\_\_\_ and to our family.

Sincerely,
