

Help us Pilot the ENVISAGE-SP Program

ENabling VISions And Growing Expectations for Service Providers

WHAT IS IT ALL ABOUT?

WHAT IS INVOLVED?

The ENVISAGE-SP Program, co-developed by health services researchers, parents, and pediatric service providers introduces service providers to a set of modern concepts, which endorse a holistic, strengths-based, function-promoting, family-centred approach to children's health and development. Through a series of five online workshops, ENVISAGE-SP offers ideas and provides tools/resources to apply these concepts in everyday practice with families.

Complete five weekly self-directed preparatory activities

Participate in five ENVISAGE-SP online workshops

Complete online surveys throughout the study

Participate in an optional online interview to help us develop the program further

WHO CAN PARTICIPATE?

Service providers (e.g., physicians, therapists) who work with children with neurodevelopmental disabilities in Canada and Australia.
