

Help us Pilot the ENVISAGE-SP Program

ENabling VISions And Growing Expectations for Service Providers

WHAT IS IT ALL ABOUT?

The ENVISAGE-SP Program, co-developed by health services researchers, parents, and pediatric service providers introduces service providers to a set of modern concepts, which endorse a holistic, strengths-based, function-promoting, family-centred approach to children's health and development. Through a series of five online workshops, ENVISAGE-SP offers ideas and provides tools/resources to apply these concepts in everyday practice with families.

WHAT IS INVOLVED?

- Complete five weekly self-directed preparatory activities
- Participate in five ENVISAGE-SP online workshop materials
- Complete online surveys throughout the study
- Participate in an optional online interview to help us develop the program further

WHO CAN PARTICIPATE?

Service providers (e.g., physicians, therapists) who work with children with neurodevelopmental disabilities in Canada and Australia
