# EXAMPLES

Training on classroom management and stress-reduction workshops for teachers working in disadvantaged schools (Li-Grining et al., 2014)

Training for design of inclusive classrooms and knowledge on ASD and ADHD for staff working with students with disabilities; using manuals, videos and web-based presentations (Strain et al., 2011 and Barnett et al., 2012)

Coaching and mentoring sessions with an occupational therapist on managing children with disruptive behaviours in elementary school (Hui et al., 2016)

Providing training for other school staff (bus drivers, cafeteria staff, administrators, etc.) on behaviour management for preschool students with emotional trauma (Holmes et al., 2015)

Training on safe transfers for students with specific motor difficulties (PABs, educators, teachers, bus drivers), for example, for a student with Osteogenesis Imperfecta in a wheelchair

## Evidence & OUTCOME

In combination with other principles, providing teacher support:

- Improves teachers' knowledge on students' health conditions (Barnett et al., 2012)
- Improves teachers' classroom management and self-efficacy (Hui et al., 2016)
- Results in positive outcomes in students' motor skills, behaviour and academic achievements (Dreiling & Bundy, 2003; Han et al., 2005; Strain et al., 2011; Li-Grining et al., 2004)

## Application IDEAS

- Providing support through instructional workshops
- Offering ongoing coaching sessions for teachers
- Using web-based platforms for exchanging information
- Providing on-line video training for school staff
- Providing resources such as written material, manuals, flow charts, and fact sheets (monthly capsules) for teachers and other professionals
